

# IPVOX The versatile audio over IP codec

## Features

- Configurable jitter buffer, packet size and delay
- Internal or external sync for digital signals
- Compliant with N/ACIP specifications
- Independent RJ45 audio stream port
- SIP compliant with EBU-Tech 3326
- Transmission of ancillary data
- ToS (type of service) setting
- Unicast and Multicast (SAP)
- Forward Error Correction (FEC RFC 2733/5109)
- General Purpose I/O
- Adaptive jitter buffer
- Touch display
- Web interface
- SNMP v1/2/3
- Auto recall
- STUN
- DHCP
- WiFi
- POTS
- Redundant AoIP
- DANTE interface
- Redundant power supply
- No additional software needed
- Mandozzi Audio Network full integration

## Algorithms

- ISO-MPEG2
- Enhanced APT-X
- PCM 16,20,24 bit
- OPUS (RFC 6716)
- ITU-T G711 / G7227
- ISO-MPEG1 Layer II and III
- AAC LC, HE, HEv2, LD, ELD
